## THE MANAGER = A RELATIONSHIP EXPERT

Rely from day to day on the relationship rules of protocol to learn how to identify a person by his or her behavior, shift from a reprimand to a clearly defined request, away from talking "about" someone to speaking "with" the person ...

Acquire the relationship skill set you need to create a natural position of authority and fairness that respects both you and the other person.

## LEAD YOUR TEAM TO EXCELLENCE

- Define an operative framework that supports a healthy work environment and fosters accountability, self-motivation and collective intelligence.
- Create an open space for direct communication that bypasses problematic behavior like withholding information or inner resignation...
- Strengthen your leadership by developing a return to core values, authenticity, and integrity.
